Minuet contribution

- Status: **In Progress**
- Details: Watch https://symphonyoss.atlassian.net/browse/CONTRIB-3
- Tracks:
  - Legal:
    - GS: ICLA/CCLA currently with Legal department
    - Symphony: ICLAs almost done, CCLA on hold.
  - Technical: Preparation work 90% complete. Kudos to Gareth Davies (and congrats :)

- Timeline
  - Depending on legal roadblocks at this point

- Governance questions - for **discussion**
  - Should we fix some key bugs before open sourcing (ETA 2 months)?
  - How do we connect the Working Group with Project Committers?
    - Tactical: Gareth Davies added to the Working Group
- Do we need a Jira project / Wiki space?

Minuet Q/A

- Does Minuet contain GPL / unacceptable licenses (<u>Apache category X</u>) as per <u>https://symphonyoss.atlassian.net/wiki/pages/viewpage.action?pageId=3211336</u>?

- Where do we maintain docs?

Container interoperable API

- From our WG charter

  …with a specific goal to prove consistency for integration with other similar technologies and in the wider context help to drive standardisation across the financial services industry such that applications such as Symphony might be hosted in different containers/ frameworks

- Who's interested in what?

- How can we scale this effort to focus on both objectives in parallel?
  - ▸ Sub-working groups?
  - ▸ Separate working group?
  - ▸ Nada?
